The drinking straws in LAWRENCE are made from 100 % biodegradable material.

Drinks containing brandy must not be given to young people (under the age of 18) and consumption must not be permitted.

Wine, beer and sparkling wine may be given to and consumed by young people aged 16 and over.
(§9 Abs.1 Nr.1 und 2JuSchG)

All prices in Euros incl. 19% VAT

**Our team is happy for its service
about a tip in cash.**

All our food is freshly prepared from very good and fairly traded products which we use sustainably. That's why we don't praise each dish as **home-made** – because that's

anyway the LAWRENCE way of doing it. This also applies to all of our self-mixed drinks.

Sacha wa hna! Enjoy! Prosit!

Appetizers

Cold Appetizers

LAWRENCE

LAWRENCE
berlin mitte

with
gallery, event locations
and large Arabic café and restaurant

is a project of
FREEARTUS
artists + refugees united for freedom
gGmbH

In the non-profit organization FREEARTUS, Berliners, Germans, Europeans have teamed up with newcomers from the Middle East to help integrate war refugees into our society and especially into the creative industries, research and education.

We do this very successfully with numerous activities, from organizing international student projects - for example in co-operation with the SRH universities in Berlin, the Venice Biennale or the ALBA Académie des Beaux-Arts in Beirut - to the artist or job mediation.

In Lebanon, we support refugee camps to improve the living conditions and enabling residents to develop a new life perspective. Some refugees are as well prepared to return to the destroyed homeland. Additionally, we try to anchor the topics of flight and expulsion with journalistic and artistic means in the media and the minds of the decision makers, but above all in the hearts of the people. Our exhibitions and lectures on this content are very well received.

We support our partners in Egypt in their efforts to build cultural centers. Or in conveying a differentiated and hopeful image of the country.

We are firmly convinced that change and migration offer great opportunities for Germany and Europe, but also for every individual. It just takes a bit of energy and self-confidence to tackle the tasks!

The newcomers wanted a cool place in the center of Berlin to meet up, to meet Germans and Europeans in a pleasant atmosphere. They wanted to present themselves and that the Middle East is more than scary pictures in the media: namely, a magnificent ancient culture - which has shaped Europe decisively - and at the same time a highly modern, often cosmopolitan and diverse. That's how we invented LAWRENCE. About two-thirds of our team have escape backgrounds.

LAWRENCE opened on 11th August 2017. The name is a reference to T.H. Lawrence, made famous as Lawrence of Arabia - adventurer, Arab friend, a British officer, archaeologist, secret agent and writer. A dazzling, and at the same time, a controversial personality

The LAWRENCE offers many culinary pleasures. We use only high quality and fresh products for our cuisine. Our wines - many of them from Lebanon and Syria - are entirely organic and come from the best growing

areas. We calculate our prices as moderately as possible so as not to exclude anyone from visiting the LAWRENCE. Every euro of profit we can make goes 100% into our humanitarian, social and cultural projects. We don't receive any kind of state or institutional financing.

FREEARTUS is officially recognized as a non-profit organization and entitled to issue donations. So if you want to send us a donation, do not hold back and talk to us! Or use our donation account at GLS Bank IBAN DE28 1009 0000 2697 3440 07 (BIC BEVODEBB).
Shukran salafan - thank you in advance!

Have a good time in LAWRENCE
say
Management and Team of
FREEARTUS and LAWRENCE

By the way, did you know that in the days of Moorish Spain, about 1200 years ago, the Arabs introduced table linen in Europe and drinking out of glasses? Until then people drank pitchers or cups in Europe. Glasses came from India via the Silk Road to Baghdad and from there to the residence of the Emir of Cordoba. There was also the food sequence with appetizer, for example, a soup, a main course - usually with meat or fish - and a sweet dessert invented. And with the help of the toothbrush, a likewise Arabian invention, one could smile afterward again radiantly. The fact that we smelled pleasant was also due to the introduction of the deodorant, also by the Arabs.

You may have noticed, at LAWRENCE's we leave the tablecloths away ... how dare we!
